

WHY FAMILIES CHOOSE TO HOMESCHOOL

Focus on extracurricular activities like music, art or sports – involving 4-6 hours/day of lessons and practice which does not fit into a normal school routine.

Freedom to choose curricula that meet their own goals.

Travel – a recent Today show story featured a family who have been sailing around the world for several years, home schooling their kids. This teaches what books cannot.

Self-pacing – to take time pressures off learning in a more structured environment.

Learning can be more customized to a student's learning style such as visual, auditory, read/write or kinesthetic.

Online coursework is preferred.

Illness or inability to attend a traditional school.

One-to-one learning works better for the child
